THE BEST CHOICE

Discover our most beautiful mineral sun formulas with the advanced and patented Zinc Oxide Technology.

Years of innovation and research led to the creation of natural formulas with patented Zinc Oxide technology. Our formulas are the most efficient mineral sunscreens available and we are able to produce higher SPF's with lower use levels of Zinc Oxide. The most special benefit of our formulas is that our Zinc Oxide is non-nano and coated with a natural coating instead of chemical silicones which makes it spread very easily, extreme transparency and no whitening.

BENEFITS

- Not coated with chemical silicones
- COSMOS Approved
- 2.4 – 2.6 SPF per unit
- FDA Approved
- Worldwide Approved
- USP grade Zinc Oxide
- Non-nano and meets EU cosmetic directive
- Broad Spectrum
- Photostable

CLAIMS

- 100% vegan
- Natural
- Reef friendly
- Free of microplastics
- No whitening
- Free of synthetic filters
- Kids safe
- Made in nl
- Velvet feeling
- Water proof

Check out our formulas which create new aesthetic milestones in the daily and natural sun protection.
