NATURAL BABY FORMULAS BY COSMETIZE

Creating the best formula for each product; natural, vegan, suitable for baby's skin and free of microplastics, this was our goal during the development process of these unique products. We use an effective combination of natural ingredients what will reflect into a perfect formula. All of these formulas are without:
Parabens, sls, polyethylene and mineral oils.

COSMETIZE is the No. 1 manufacturer and developer of brand & private label cosmetics in the Netherlands. We are the full-service manufacturer for retail, wholesalers, salons, fashion- and private label brands. With production capacity in several European countries and our headquarter in Harderwijk we can switch quickly and ensure a high quality. Our flexible product capacity makes it possible to alternate between small and large quantities within a short time. Furthermore it's the optimum focus on cost control, low MOQ and our design- and concepting department that makes COSMETIZE the perfect partner in developing private label cosmetics. COSMETIZE strictly works according to applicable legal standards and procedures to ensure quality in every aspect. In addition, we work according to the statutory standard of Good Manufacturing Practice (GMP ISO 22716:2007). GMP provides guidelines for the production, control, storage and shipment of cosmetic products.

ACTIVE INGREDIENTS

Sweet almond oil is a rich source of vitamins A and E, hypoallergenic in nature, prevents dehydration of the skin, deeply moisturizes and softens irritated and dry epidermis. The oil perfectly cares for the delicate skin of babies - as an olive to lubricate the body, and also as an emollient added to the bath.

Avocado oil moisturizes, regenerates, strongly nourishes and protects. The oil is similar in structure to skin lipids, therefore it is highly tolerated, recommended for dry and sensitive skin. It is deeply absorbed, does not shine and is slightly dense. It strengthens and tones the skin.

Chamomile extract brings relief to dry, itchy skin, has antibacterial and antifungal properties. The extract moisturizes the hair and supports the regeneration process. It is recommended for the care of sensitive and delicate skin, prone to irritation.

Panthenol, or provitamin B5, has healing properties, regenerates damaged and irritated epidermis, soothes redness. Panthenol works by mobilizing cells to divide faster. Panthenol is very effective in dealing with redness on the delicate skin of a child and chafing, bringing immediate improvement in the appearance of the skin and relief.

Betaine from sugar beet experts a strong moisturizing and soothes irritant detergent, making it a perfect addition to cleaning products (shampoo, hair, conditioner, washing emulsions, micellar liquids, lotions intimate hygiene). It reduces the feeling of stickiness and facilitates the distribution of the cosmetic. Betaine is an emollient agent that is recommended for demanding atopic skin and for the delicate of a baby.

Aloe Vera juice is a natural emollient that soothes, heals and moisturizes. It is used in cosmetics both for its healing and highly moisturizing properties. This plant is adapted to accumulate water reserve in the leaves, which then sensationally 'gives' to the skin or hair, both when used internally.

SAVE THE PLANET

Our natural baby formulas are perfect to use for a conscious brand for children's cosmetics. We value our planet and try to act in harmony with nature, which is the source of the ingredients in our product.

We thank her that she gives us valuable gifts and we act in harmony with nature to repay us. When choosing the Less Waste lifestyle, it doesn't require you to achieve absolute zero. This means a commitment to a goal of zero.

Together with us, you can consciously influence the amount of waste, your daily life.

NATURAL FACE CREAM

Natural face cream provides reliable protection and regeneration of the delicate skin of a child's face. It contains a large amount of calendula and chamomile flower extracts that have anti-inflammatory properties. Natural sweet almond, cotton seed and coconut oils soothe and regenerate the skin. The product is suitable for frequent everyday use.

98% NATURAL INGREDIENTS SUITABLE FOR VEGANS

Ingredients: Aqua, Caprylic/Capric Triglyceride, Prunus Amygdalus Dulcis Oil, Cocos Nucifera Oil, Glycerin, Glyceryl Stearate Citrate, Cetearyl Alcohol, Calcium Starch Octenylsuccinate, Hydroxypropyl Starch Phosphate, Glyceryl Stearate, Betaine, Benzyl Alcohol, Olus Oil, Gossypium Hirsutum Seed Oil, Squalane, Tocopheryl Acetate, Allantoin, Inulin, D-Panthenol, Dehydroacetic Acid, Alpha-Glucan Oligosaccharide, Chamomilla Recutita Flower Extract*, Tocopherol, Calendula Officinalis Flower Extract*, Sodium Benzoate, Potassium Sorbate
